

Westcott Street Design Competition

WNA actively engages the greater Westcott neighborhood in order to strengthen the quality of life in the community. In an effort to continue this mission, the Westcott Neighborhood Association is soliciting ideas for enhancements and amenities that will increase the comfort, usability, and appeal of Westcott Street for residents, business, and visitors.

Projects supporting pedestrian street life, strengthening the identity of the Westcott Neighborhood, and creating a safe and inviting experience will be given priority. Proposals that address the above priorities with an interesting, unusual, and artful approach will be of most interest.

WNA is hoping to solicit a wide variety of ideas from a diverse group of participants, as anyone is eligible to apply. To that end, we encourage submissions from individuals with the desire and ability to fabricate their project as well as individuals needing assistance executing their idea.

A \$500 cash prize will be awarded to the submitter with the most creative and practical project concept.
**This is separate from the full project cost.*
